

Urgent Meeting – Have your say on the future of the SQ EBA

It's time for ASU members at SQ to make a decision about the future of their EBA. [Join the ASU Meeting](#) at 5.00PM Eastern Time, on Monday, 13 July 2020 to have your say on management's proposal to pause bargaining for 6 months. [Click here to register.](#)

Your bargaining team has reached an 'in principle' agreement with SQ MNT about the details of the pause on bargaining. This means we think that we're close to a deal, but we need members' endorsement of the proposal before we can sign on the dotted line.

What do I need to know?

- **Bargaining will be paused for 6 months until January 2021.**
- **Your EBA is protected.** Your EBA will continue until it is replaced by a new EBA or terminated by the Fair Work Commission. Management has given a binding promise not to seek to terminate the EBA.
- **Progress in bargaining is preserved.** When we start discussions again in January, we're picking up discussions where we left off.
- **We can start bargaining again if something changes.** Management have agreed to discuss starting bargaining again if circumstances change before January 2021. They've agreed they cannot unreasonably refuse to start bargaining.
- **We'll keep working with management for a fairer, better workplace at Singapore Airlines.**

These principles will be recorded in a Memorandum of Understanding ('MOU') between the ASU, MNT and ENT. We'll be asking for your endorsement of the MOU at the members meeting. [Click here to register.](#)

We've been bargaining with the company for 4 months. We've fought off Clause 33 and Appendix D – which are big wins. But the reality is that the company isn't in a position to agree to our claims at this time. Rather than lock in a low wage EBA for three years, we need the time to make our union stronger, and a chance to negotiate a better deal in January.
