

# BUILD A BETTER FUTURE

OUR RIGHTS  
AT WORK

# OUR RIGHTS AT WORK ARE UNDER ATTACK AGAIN!

The Federal Government launched an inquiry into all the rights Australian workers enjoy at work, rights that generations of Australian Services Union members have fought for.

## Employers are demanding:

- ✗ Penalty rates be abolished
- ✗ Workers be put on individual contracts
- ✗ No unfair dismissal protections
- ✗ Lowering or freezing the minimum wage

## OUR RIGHTS AT WORK

These rights are fundamental to our living standards and our way of life. Without them, employers will have all the power and Australian workers will have no protections.
