The Australian Services Union is very concerned about jobs for our kids and our communities. This should be the number one priority for local MPs.

**JOBS FOR
OUR KIDS**

But instead the Federal Government has:

- ✗ Signed a free trade agreement with China that allows companies to fly in their own workforce without a requirement to hire ANY local workers.
- ✗ Allowed employers to use and abuse temporary work visas with 10% of the workforce now on temporary work visas.
- ✗ Let 200,000 good jobs go offshore after the Federal Coalition Government goaded the car industry into leaving the country.

- ✗ Caused the loss of 20,000 jobs through their savage cuts to public and local community services

At the same time the Federal Government has:

- ✗ Cut billions of dollars from our TAFE system.
- ✗ Pushed to make a university degree cost \$100,000.
- ✗ Tried to take away unemployment benefits from young people.

Tell your local MP it's not good enough!
